DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species VI (Fig. 8) in the reply filed on 9/19/05 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by How (US 6,483,393).

How (e.g. Fig. 2) teaches a phase shifter nonreciprocal resonator device including: a microstrip ring shaped resonator (Claims 5, 7) having symmetry of various parts; a biased ferroelectric material (221) (Claims 3-4); microstrip inductive couplings connected to the ring (Claim 6); and inherently the device would function the same as the present invention, especially since the prior art is the same structure as the presently claimed invention (Claims 1, 2, and 8).
